

THE CO-OPERATIVE ADVANTAGE

As a co-operative organization Gosfield North Communications provides a number of important and unique benefits to you – its members and customers.

We are a community-based organization: we invest (and reinvest) in our community

We are locally-owned: you as members and owners are entitled to attend Members Meetings and vote on the issues on the agenda

We are locally-based: the Head Office of Gosfield North Communications is at 128 County Road 34 West in Cottam!

We offer personal, professional and responsive service to our customers. Unless we're really busy, you get a human voice when you call us. If you need assistance and it's important, we are only a few minutes away

We offer a patronage dividend to our members based on the amount of services purchased during the year. This is paid out in December each year and can amount to a couple of months of free service

When you purchase your telecommunications services from us all the charges are itemized on a single, convenient bill (you also receive patronage as noted above)

We offer a Bursary Program annually to students who are/whose parents are members of the Co-operative and who are attending a first- through fourth-year program at College or University on a full-time basis

We sponsor a number of local sports teams and support a variety of activities in our area each year
